Machine Is Threatened.

It would not be fair to say that by any means all the opposition to Garfield there is a general feeling of antagonism to nominating Carfield on the part of the most of the Taft elements. But

there is another side to it. The whole force of the old machine element is against Garfield. Cox, Dick, Burton and all their supporters are against Garfield, for the reason they realize that if Garfield wins they will be wiped off the slate.

Senator Burton is especially concern ed over the rising strength of Garfield. He fears Garfield as a rival in the future in his own end of the State. He sees Garfield now as popular as he himself was in 1907, when he, Burton, was hailed as independent. It was before Burton went to the Senate and lined up with the Aldrich forces.

The result is that Burton is leading the battle against Garfield. With him,

Senator Burton yesterday proposed Speaker Mooney, of Ashtabula, as a compromise candidate for governor.

GERMANS PLANNING TO UNVEIL STATUE

Plans are forming to make the unveiling ceremonies of the General Von Steu-ben monument, in occur here in No-vember one of the most elaborate fes-

vember one of the most elaborate festivities in the history of the German-American National Alliance which has a membership of nearly 2,000,000 voters throughout the country.

In order that the ceremonies may be a complete success, calls have been sent broadcast to the singing societies, the Turner organization, veterans of the France-Prussian and civil wars, the Sharpshooting Verein, the Northeastern Saengerbund, the North American Turberbund, the United Veterans' Societies of the United States, and all other German organizations to take the matter in hand and prepare for the event by perfecting arrangements for their attendance without delay.

The United German Societies have appointed a number of committees and delegations or societies will bring flags or banners giving color to the scene of the unveiling.

At a special meeting of the Columbia Turnverein last night Kurt Voelckner was elected president or first speaker of that society in the place of Prof. A. Werner, whose term has expired, and who is in Germany. The women's section of the turners are making arrangements to celebrate the 100th anniversary of Turnvater Jahn with a lawn fete in the club gardens.

Mooney wants to be secretary of state, and when he found Burton was trying to use him to head off the Garfield movement, he started for the tall timber, and is still running.

Garfield's friends say he is the only man who can be nominated and elected. It is knowledge of this that is said to make some of the Taft, men, like Wade Ellis, recognize that it might be better to name Garfield and carry the State than to let Harmon carry it.

Some of the Taft men think that they might make peace with Garfield later. If he were nominated. Burton, Dick, Cox, and their lieutenants apparently would rather have Harmon carry the.

Guthrie's Record Good.

Former Mayor Guthrie has had a record equally as unique. He was elected mayor of Pittsburg three years ago by a large vote. This is a Republican city, and at that time the contest was especially fraught with interest, as the mayor then elected became head of a

So it is evident that all three men have in themselves points which make them strong as champions of the people's cause.

Origin of Movement.

The third party movement was promoted because of the widespread dis-satisfaction expressed by Republicans and Democrats alike, following the action in June of the party conventions in naming what are regarded as weak tickets. The Republican leaders are charged with being of the Democrats, who had counted

Business officers of the brotherhood said today some of its members had deserted the ranks of the strikers, and are working on "struck job," but in each case the individual has been expelled from the union and declared a non-union workman.

Business Agent Gilmore, of the Amalgamated Society of Carpenters, which refused to join the brotherhood in its strike, despite the fact that it was ordered to do so by the trades department of the American Federation of Labor, said today that he had received no word from the A. F. of L. respecting the so-called defiance and disobedience.

Mr. Small denies the story published in a morning newspaper that he thought his daughter had been lured from home by a band of gypsies.

Miss Small, who is described as an attractive brunette, had been making her home for the last two years with her married sister in Baltimore. Last May she returned to, her father's home of the many her home for the last two years with her married sister in Baltimore. Last May she returned to, her father's home of them really thought that sonly one of them really thought that he was guilty of the offense. As the evidence came forth to show that the chickens had been taken from the stable and that the three men had seen seen in there, the judge was aften proceeded to say it. He told the court that he had not taken the chickens, and had never seen them. Judge Aukam asked him why he had pleaded guilty. He replied that he thought the was as gullty as the man who took them, because he helped to drink up the money. When asked who took them, because he helped to drink up the money. When asked who took the birds he answered that it was Barrett and Brown.

Barrett was next called and he said he had not touched the chickens, but that he pleaded guilty because he had helped to drink up the money that Brown and Smith had gotten for the sale of the fowls.

The judge smiled and called Brown who said that he had taken the chickens and that the other two men were with him and helped to capture them. Judge Aukam thought that he deserved some reward for his honesty, so he fined him \$20 for the offense and the other two got \$50 each.
